- This project is a simple calculator that is built in js and reflects the use of DOM.

Stopwatch

Responsive Web Layouts

This is the fully responsive web design of Microsoft's official website using Tailwind

This is the fully responsive web design of Microsoft's official website using Tailwind CSS

PROFESSIONAL EXPERIENCE

2023 Sep – 2023 Nov
Kathmandu, Nepal

Junior Developer at GoldenDuck Enterprises

- There I worked for three months with a developer team. My main job is to look after the in-built projects of the company and perform the necessary changes in the UI or the backend side. During this, I mostly worked with JS, Node.js, React, and CSS.

2023 Dec – 2024 Feb
Advanced College of
Engineering and
Management, Kalanki

Student Fellowship Intern

- I have worked for 10 weeks in an intern program with the US-based company Pahadi Research LLC at the Advanced College of Engineering and Management. During this period, I learned the zero coding concept, where coding is done through JSON.
- We also have hands-on design and database and make dynamic web layouts.
